HUNT FOR PLANTS

OUR NURSERY - WHERE IT ALL BEGINS

It all starts here at our nursery with an inspiring collection of the most stunning plants & trees. There's every shape, size and variety imaginable. Fill your senses with flourishing form, texture, structure, colour & fragrance.

PLANT HUNTERS' GUIDE

WE USE 3 DIFFERENT COLOURED LABELS TO GIVE AN INSTANT INDICATION OF A PLANT'S FROST HARDINESS

(Think of Traffic Lights)

IF IT HAS A **GREEN** LABEL

Hardy anywhere in Britain below approximately 1,000 ft (300 m)

IF IT HAS AN **AMBER** LABEL

Hardy in the Home Counties if sensibly sited (avoiding severe frost pockets, for example). Many Amber Labelled Plants are from cuttings from well established plants that have survived many harsh winters in the South-East.

IF IT HAS A **RED** LABEL

Hardy in Atlantic Seaboard gardens, The Channel Islands, gardens in Central London and other large cities.

We're always on hand to give advice about plants and their frost hardiness. Please remember that these coloured labels are only a rough guide.

GARDEN DESIGN

FROM OUR NURSERY TO YOUR GARDEN IN 3 STEPS

Large or small, all our Garden Designs are inspired by an obsession with the sculptural qualities of plants, where strong, eye-catching outlines and exciting textures combine with differing shades of green and pertinent pops of colour.

1. YOUR DESIGNER

It all starts with a conversation and the right designer for you and your garden. They'll arrange a visit and start the exciting process of planning the garden you've always dreamt of. And so it begins.

2. THE INSPIRATION

Next, We'll send you a planting scheme full of inspiring suggestions and an invitation to visit our nursery to explore your design and plants in much more detail.

3. THE PLANTING

And now the magic really comes to life. With a date set for the planting, our team whirrs into action creating your idyllic retreat brimming with the most exquisite plants in a design that is uniquely yours.

CREATIVE MAINTENANCE

Keep your garden looking at its very best throughout the year with precision clipping, pruning, stripping, manicuring or a sharp haircut - whatever might be required.

Ask us about the expert care & attention our Creative Maintenance Team can give your plants.

If you would like to start your adventure with us, we're here to help you today or you can always contact us later:
